What We Do

“We give horses & ponies in the UK the correct loving and secure home which they deserve”.

We help individuals who for one reason or another can no longer look after their horses & ponies.

We take and assess those horses & ponies using fully trained equine specialists and eventually place them in secure & loving homes on long-term loan agreements.

We strive to raise enough monies from corporate and public donations so that horses & ponies in our care have a secure & loving future.
