

HOME FOR LIFE

Hopton Rehab & Homing Centre can in certain cases provide long term care for horses & ponies whose owners have died, have long-term illnesses, or no longer have the capacity to look after them further.

Arrangements are made between owners and HRH well in advance, so owners do have peace of mind in the knowledge that their beloved companion will have a safe and happy future.

We will, with your permission and as with all of our horses & ponies, carry out assessments of the equine in question and choose the most suitable type of care with you.

Sometimes circumstances can be quite complex so in the first instance and to discuss this option further, please contact us, in complete confidence, at: enquiries@hoptonrehabhoming.org.
